

Aisha Khan

Senior Data Engineer — Karachi, Pakistan (remote)

aisha.khan@example.com | +92 300 678 9012

Summary

Data engineer who builds pipelines that don't wake anyone at 3am. Seven years across ETL, warehousing, and streaming; strong dbt and Airflow practitioner.

Experience

Senior Data Engineer — Finlytics (Mar 2024 – Present)

- Own the dbt/Snowflake warehouse (300+ models) powering company analytics.
- Built Kafka streaming ingestion handling 50k events/second.

Data Engineer — NorthStar Analytics (Apr 2021 – Feb 2024)

- Orchestrated 80+ Airflow DAGs feeding a Redshift warehouse.
- Rebuilt the core Spark ETL, cutting nightly batch time from 6h to 90min.

ETL Developer — DataBridge (Jun 2019 – Mar 2021)

- Migrated legacy SSIS packages to Python-based ETL.

Education

BSc Computer Science, NED University, Karachi (2019)
