

Grace Wanjiru

Principal Cloud Architect — Nairobi, Kenya
grace.wanjiru@example.com | +254 722 234 567

Summary

Cloud architect with 13 years from systems engineering to principal-level architecture. Designs multi-cloud platforms, leads large migrations, and keeps the bill under control.

Experience

Principal Cloud Architect — Zindua (Oct 2021 – Present)

- Architected the multi-cloud platform (AWS + GCP) for a pan-African fintech.
- Led a 30-person cloud migration program, completed 2 months early.
- Cut annual cloud spend 35% via rightsizing and savings plans.

Cloud Engineer — CloudPath (Mar 2017 – Sep 2021)

- Executed 12 datacenter-to-AWS migrations for enterprise clients.
- Standardized infrastructure-as-code with Terraform across all projects.

Systems Engineer — TelcoOne (Jan 2013 – Feb 2017)

- Ran core Linux/VMware infrastructure for a national telco.

Education

BSc Information Technology, University of Nairobi (2012)

Skills
