

Marco Rossi

Senior Full-Stack Developer — Milan, Italy
marco.rossi@example.com | +39 340 567 8901

Summary

Full-stack developer comfortable across the whole product: Node.js and NestJS on the back, React on the front, PostgreSQL underneath, AWS around it all.

Experience

Senior Full-Stack Developer — Lumina (Feb 2024 – Present)

- Built the invoicing module end-to-end (NestJS, React, PostgreSQL).
- Introduced end-to-end testing with Playwright, catching 30+ regressions pre-release.

Full-Stack Developer — Trenta (May 2021 – Jan 2024)

- Developed customer-facing features on a Node.js/React/MongoDB stack.
- Improved API response times 3x by adding Redis caching.

Web Developer — Freelance (Jun 2018 – Apr 2021)

- Delivered 15+ web applications for small businesses across Italy.
