

Viktor Ivanov

Security Engineer — Sofia, Bulgaria
viktor.ivanov@example.com | +359 88 123 4567

Summary

Security engineer covering offense and defense: penetration testing, cloud security reviews, and incident response. Started in the SOC, still thinks like an attacker.

Experience

Security Engineer — BlueShield (May 2021 – Present)

- Perform web application penetration tests for enterprise clients (OWASP methodology).
- Led AWS security reviews; found and remediated 3 critical misconfigurations.
- Incident responder for ransomware and phishing cases.

SOC Analyst — SecOps Ltd (Jun 2018 – Apr 2021)

- Triaged alerts in Splunk SIEM for 30+ enterprise customers.
- Wrote Python automations reducing false-positive triage time by half.

Education

BSc Informatics, Sofia University (2018)

Skills

penetration testing, Burp Suite, Splunk, Python, network security, AWS security, OWASP, incident response

Languages

Bulgarian (native) · English (fluent)
